BLUETOOTH KEYBOARD CASE

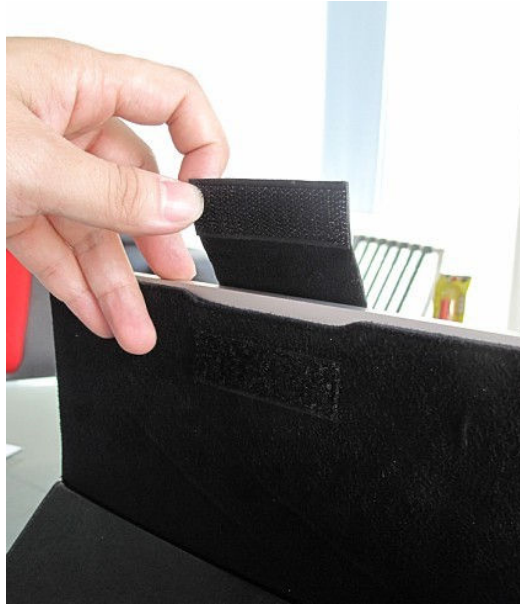

BT Keyboard Case

Set up Instructions for the Ipad Keyboard Case

Step I Setting up the iPad

- **Insert the iPad into the Case.**

- **Secure the bottom strap to prevent the iPad from slipping out of the case.**

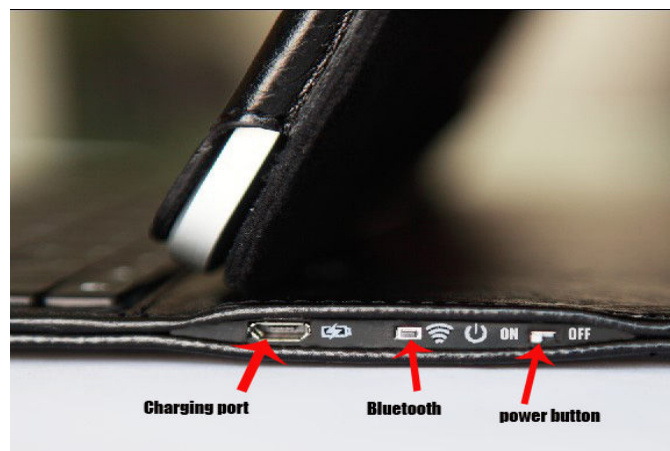

BT Keyboard Case

- Use the built in kick stand feature to position the iPad comfortably.

Step II How to connect the Bluetooth Keyboard to the iPad

- Turn the Bluetooth keyboard on by using the power button on the right side of the keyboard
- Then press the bluetooth button to put the Keyboard into “Pairing Mode”.

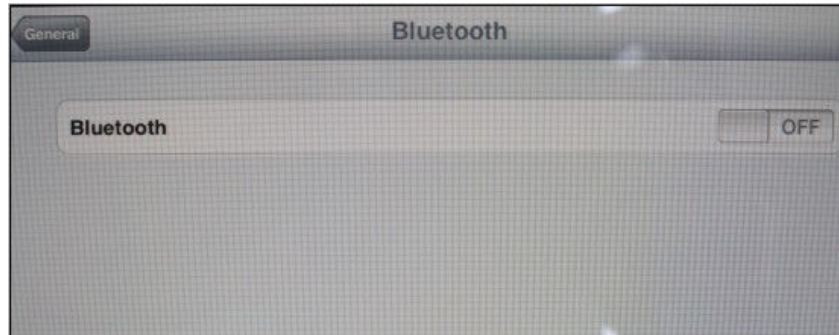

- Turn the iPad ON, Unlock the iPad, and tap “Settings”.

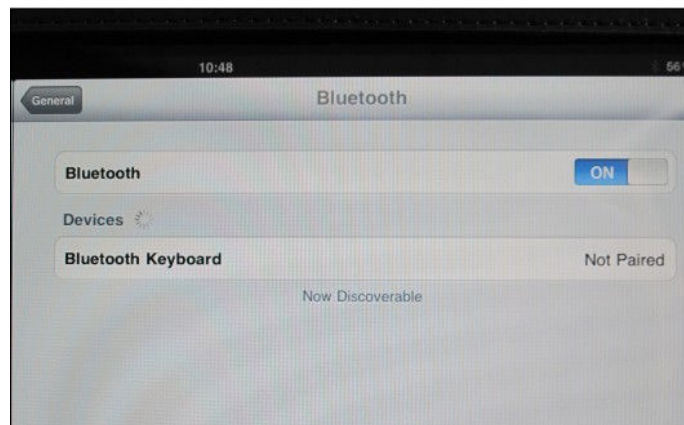

BT Keyboard Case

- Tap “Bluetooth” and then switch to ON (If not on already).

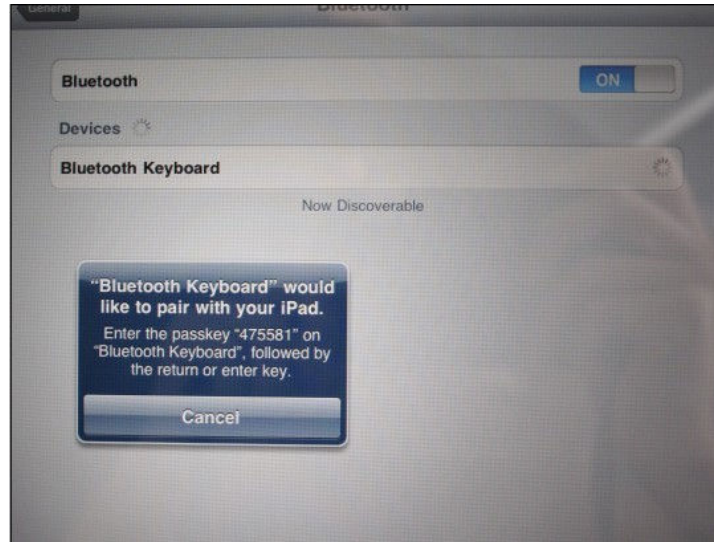

- The iPad will show a list of available and connected bluetooth devices.
- Look for *Bluetooth Keyboard* in the list and tap it. (It should say *Not Paired* if the devices were never paired.)

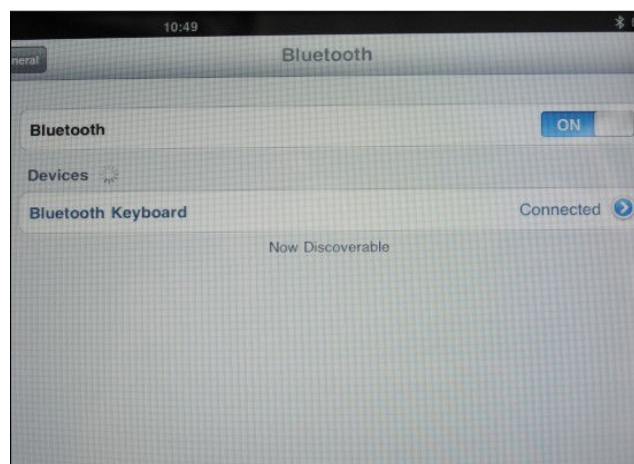

BT Keyboard Case

- Click on the “Bluetooth Keyboard”.
- A new window should pop up on the iPad screen with the Passkey. The passkey is needed to connect the Bluetooth keyboard to the iPad.

- Enter the passkey on the Bluetooth keyboard followed by the return or enter key
- The Bluetooth Keyboard is now successfully connected to the iPad and is ready to use.

BT Keyboard Case

Using the Bluetooth keyboard with the iPad after it has been paired

- **To connect the iPad to the bluetooth keyboard, turn the power switch ON and then press the bluetooth button on the Bluetooth keyboard. It is now ready to use**

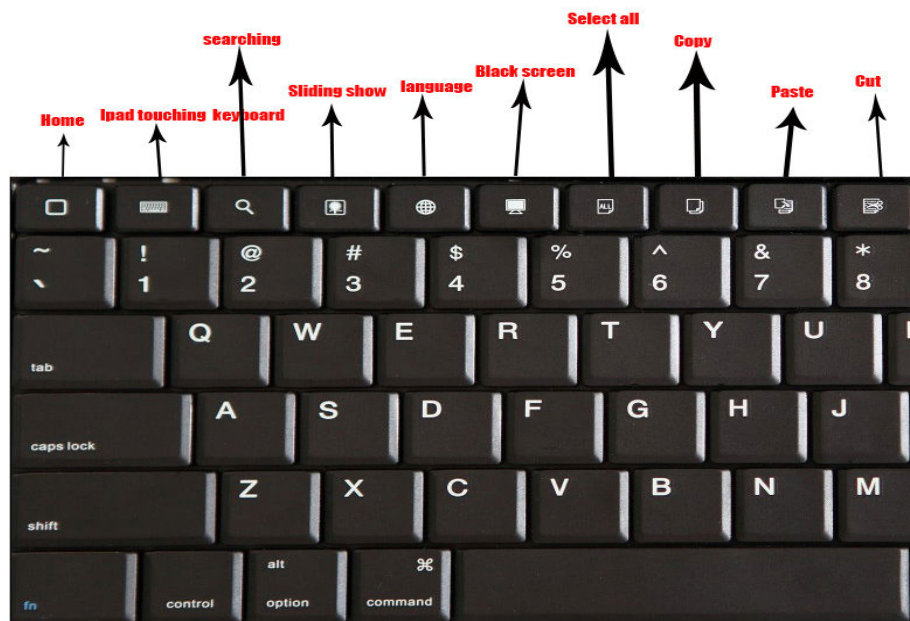

- **When the power is turned ON, the light on the right top of the keyboard will flash blue ONCE.**
- **When you activate the Bluetooth radio, the light will blink once every second. The device is now in “Pairing Mode”.**
- **When the device is connected, the blue light will blink 2 times every 10 seconds.**
- **When charging, a GREEN light will come on and stay on until charging is complete. To fully charge, please switch the keyboard OFF.**

About The Bluetooth Keyboard:

- **This Keyboard is customized just for the iPad; therefore, some keys are unique**

BT Keyboard Case

iPad functions (see the image below for a list of those functions).

**The built-in lithium battery has an operation duration of 120 hours, in standby mode it will last up to 2 months when fully charged. Charge the device by connecting the USB cable to an appropriate power supply (e.g. USB Port on laptop or PC).*

Pairing only needs to be done ONCE unless you delete the device from the Bluetooth Devices list. Repeat Step II to reconnect device.

Bluetooth Keyboard Technical Specifications:

Bluetooth Specification : Version 2.0

Operation Current : <5mA

Operation Voltage : 4.2V

BT Keyboard Case

Charging Voltage:	110-240V
Battery Type:	Lithium Battery
Charging period :	4hours (For the first time, please charge for 12 hours)
Standby Time:	45 days
Weight:	478g

Troubleshooting:

If you are unable to connect the keyboard to your Ipad, please try the following:

- **Check if the battery is low. If the keys are responding slowly or not at all, try charging the battery.**
- **Check the power switch, make sure it is on. When it is on, the power light on the top right of the keyboard will flash Blue.**
- **Power OFF and ON and delete device from Bluetooth devices list and reconnect Keyboard to iPad.**
- **Verify that the correct passkey is being entered before pressing Enter on the Keyboard.**
